

"GLOBE" ANTHEM

Guard the forest, guard the flowers,
Guard the rivers, guard the sea.
Don't throw garbage all around,
Guard all precious living being.
GLOBE children of the world,
Sing a message to be heard.
Happy Earth is singing now,
Flowers blossom in our hearts.

Clean air that's all we need,
Oxygen is nice to breathe.
Sky is smiling over me,
Clouds are interesting to see.
Nimbus clouds bring out the rain,
A storm is coming on it's way.
We don't wish to be afraid,
While we're dancing in the rain.

Guard the forest, guard the flowers,
Guard the rivers, guard the sea.
Don't throw garbage all around,
Guard all precious living being.
GLOBE children of the world,
Sing a message to be heard.
Happy Earth is singing now,
Flowers blossom in our hearts.

Happy Earth is singing now, flowers blossom in our hearts.
Happy Earth is singing now, because flowers blossom...in our hearts.
